RE: Request to amend the drainage petition for the Ribov #620 watershed project

By motion with unanimous approval on March 3, 2015, the Kingston Township Board of Trustees (Trustees) formally request to have the *East Lateral of Main "A"* included in the Ribov #620 drainage project now under consideration by the Delaware County Board of Commissioners. The Trustees make this amendment request to provide for a good and sufficient drainage outlet for the Todd Street Road culvert located within said *East Lateral of Main "A"*. The Trustees believe this inclusion would assist in reducing or eliminating seasonal flooding and in the removal of water conditions that could jeopardize public health, safety and welfare.

Thank you in advance for your consideration.

Kingston Township Board of Trustees

Chairman  Trustee Dewey Akers
Vice Chairman  Trustee Steve Volpe
Executive Member  Trustee William L. Shively

Ribov #620 (2)
